

# tranSMART REST API

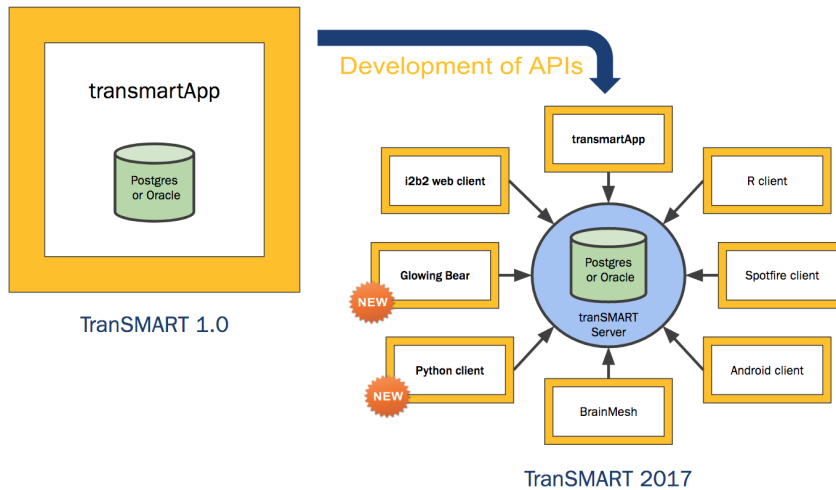

Available REST calls and code:

- REST API V2 (17.1/2017 and higher) and V1 documentation: [tranSMART 17.1 Server release#RESTAPIV2](#)
- REST API V1 (1.2.4 and higher) on Github: <https://github.com/transmart/transmart-rest-api/>

See for the OAuth authentication:

- [Types of code grants to access the REST API through OAuth](#)
- [OAuth client application registration](#)
- [OAuth authorisation and authentication](#)

Known API clients: [tranSMART REST API clients/apps](#)

*Illustration of how the development of the REST API allows for an ecosystem of apps on top of tranSMART*
